

AV- Aluminum AVA- Steel

DESCRIPTION:

Drum-type diffuser, ideal for high volume air. Excellent aesthetics. The AV model is designed for high capacity and long shots. It is also suitable for installations where space is long and it is impractical to bring the product close to the occupants, an example of these are shopping malls, stadiums, factories and warehouses, etc

FEATURES:

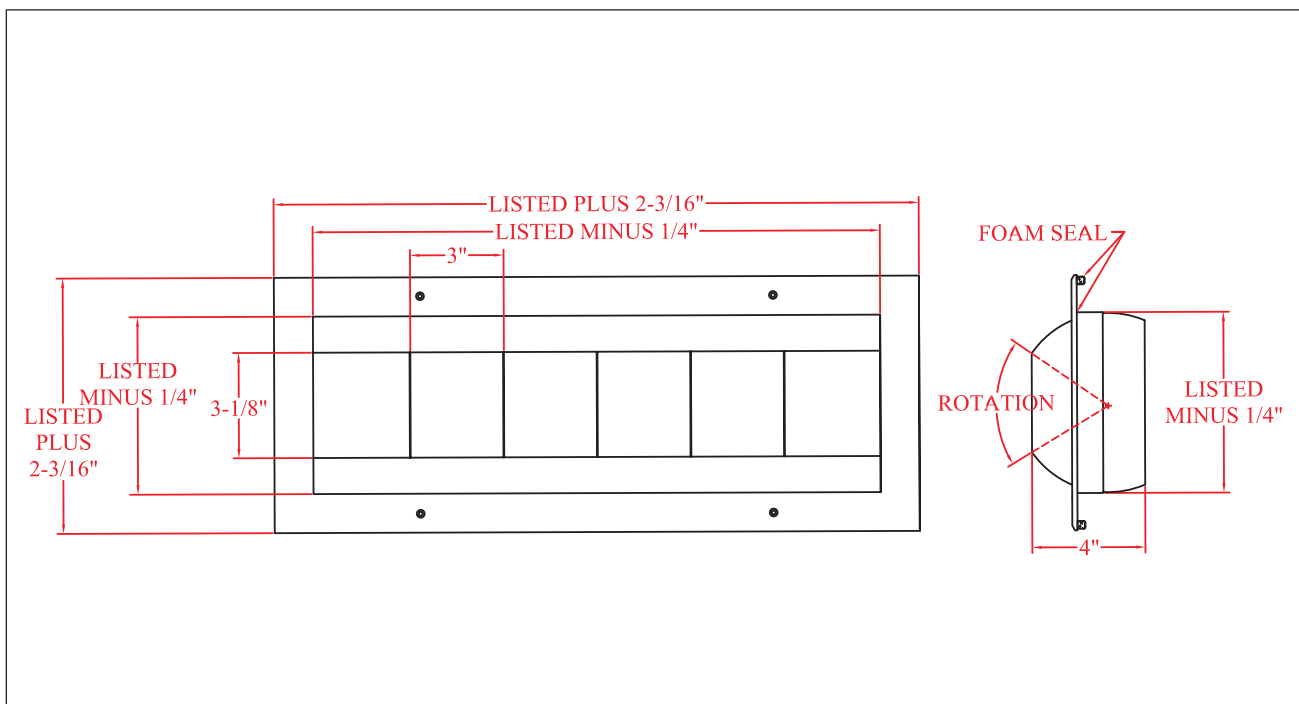

Long shot and tuning of horizontal and vertical direction can be adjusted by rotating the rotating drum and vertical fins. Foam seal to prevent leaks and keep the drum in the desired position.

MATERIALS:

Cold rolled steel sheet or aluminum, manufactured with the same design as the steel.

FINISH:

Baked electrostatic paint (polyester) white Vermont as standard finish with optional gray and matte black aluminum free extra foam seal on the frame to prevent dust spots, airtight plastic packaging for fixing screws.
