

Flexible round duct DIM

SPIRO DUCT + FITTINGS + GRILLES + DIFFUSERS + FILTERS + FLEXIBLE DUCT + ACCESORIES

Non-insulated flexible air duct specifically produced for low and medium pressure heating, cooling, ventilation and air conditioning systems. Airtight DIM is produced from self extinguishing and low smoke and flame metallized polyester films multi-layered in spiral form with high tension hard steel spring wire and water based adhesive. Comes compacted for efficient shipping in a water proof packaging. DIM has high flexibility and it can be easily fitted to circular or oval ducts and connectors.

1 Prinicpal Features
